What the entries record

At 10:42:18 the log places the subjects outside the front door. Ten seconds later it records “BUSN SHILTER IN PLACE,” with that spelling. At 10:43:04 it records a report of attempted forced entry and kicking. The address on the incident is 2330 Robinson Street.

The call log preserves what was reported about this business. It supplies no identification of a Pikes Peak State College campus lockdown, classroom closure, or campus-wide alert. The time of an entry is the time it was logged. It does not establish when any underlying action began.
