What the detective wrote that he saw

Detective Trevor Kenoyer wrote that he watched from Safe Passage, across the street, and saw John "getting shoved away, and kicking the front doors." Kenoyer said he then ran across the street and detained John. Detective Sean Medina's separate account describes John appearing to push past an employee and opening the door forcefully (PDF p. 7).

What John told the detective

Kenoyer recorded that John wanted records identifying adults who had been around his son. He wrote that John described a family advocate's home visit, called this his fifth meeting, and said he still had not received the information. This documents the explanation John gave police that day.

The witness statement and the damage estimate

Officer Carlos Espinoza wrote that detectives were already with the family when he arrived. He attributed the account of blocking John with an arm, pushing him outside and John kicking the door to staff member Cody Crawford. Espinoza described an inward dent and an estimated $1,000 repair. He wrote that digital photographs were uploaded. The cited pages contain no paid repair invoice.

What Kenoyer reported seeing on another recording

Kenoyer wrote that he reviewed Safe Passage security footage labeled 09:29–09:45 and saw a shove and a kick. He placed his on-scene observation at about 10:42 a.m. The camera clock's alignment is unresolved. The short Axon street approach displayed on the website begins after the disputed doorway contact.
